### Skills

HTML, CSS, Javascript, and Git

React & Redux

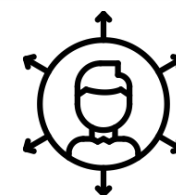

CSS Frameworks

Intermediate  
English.  
Cambridge English  
score 15/25

### About me

I develop web applications with UX focused designs and excellent UI through frameworks and libraries such as React js, Bootstrap, Tailwind and Material UI. I carried out projects in work teams with workflows and sprints of 48h and 72h.

I am a professional graduated in Mechanical Maintenance Engineering and Front-end Web Development with certifications in both areas and with a focus on achieving the objectives of companies and their clients.

### Educación

Universidad Fermín Toro, Mechanical Maintenance Engineering (2019).

ACADEMLO, Foundations of Web Development(2022).

<https://certificates.academlo.com/en/verify/05026549161696?ref>

ACADEMLO, Front-end development with React

js(2022).<https://certificates.academlo.com/en/verify/27865927194002>

### Experiencia

User's CRUD

<https://users-crud-vzla.netlify.app/>

I developed a CRUD of responsive users with React, React hooks, React-hook-form, and fetch with Axios of a Y API, all in a 48h sprint.

Portfolio.

<https://alex7vzla-portfolio.netlify.app/>

I made my professional portfolio as part of a culmination project of my Web Development studies to make use of Web Design, Responsive Design, use of external Libraries and CDN's.

Weather App.

<https://weather-app-react-location.netlify.app/>

I made a responsive and informative web application about the weather condition from its geolocation, in order to understand the life cycle of the components and the consumption of a free API in React js.

Rick&Morty Wiki-app.

<https://rick-and-morty-wikiapp.netlify.app/>

I created a wiki app about the Rick & Morty Universe, I made use of react-hook-form for the input of the location to look for and consuming an API with Axios, all in React js in a 24h sprint
